**COURSE OBJECTIVES:**

1. Demonstrate a logical approach to the diagnosis of oral lesions.
2. Recognize, diagnose and determine a treatment plan for selected oral diseases (herpes, aphthous, lichen planus, etc).
3. Integrate therapeutic regimens used to treat oral diseases encountered in dental practices.
4. Distinguish good from bad.
5. Manage xerostomia in our aging population.
6. Applying practical clinical information immediately applicable to everyday practice.

**Seminar #2, Friday, November 14, 2014**

Fay Goldstep, DDS - "Predictable, Proactive and Profitable Minimally-Invasive Dentistry"

**COURSE OBJECTIVES:**

- New materials and techniques make it easy to practice Minimally Invasive Dentistry. This gentle patient-friendly dentistry is now predictable, proactive and profitable.

**Predictable** - Areas of early decay are detected and mapped, successfully treated and easily re-evaluated. The patient-friendly "direct restorative approach" is now used for preventive minimal invasive option.

- "The Perimeter Prep" has created perfect contacts and contours every time making open contacts a thing of the past. Keep peri-procedures in your office with soft tissue lasers: gingivectomies, tissue recontouring, crown lengthening, troughing, and much more.

- "The Perimeter Prep" is the only thing needed for etching. Restorative restorative materials enhance the healing of teeth and reduce restorative failure.

- The newest minimization therapies including an all-in-one delivery system to clean, desensitize and remineralize enamel.

- Fluoride-phosphate desensitization is the powerful new adjunct to periodontal healing.

**Profitable** - Minimally invasive techniques are easier, and faster than traditional dentistry. Patients prefer to be treated in an office that practices minimally invasive dentistry. Create a predictable proactive profitable practice with patients for life.

- Dr. Fay Goldstep has been an ADA Seminar Series Speaker, and has lectured at the ADA, Yankee, KODI, AGD, and the Big Apple dental conferences. She has lectured nationally and internationally on Preventive/Minimal Intervention Dentistry, Soft Tissue Lasers, Electronic Caries Detection, Healing Dentistry and Innovations in Hygiene.

- Dr. Goldstep has served on the teaching faculties of the Post-graduate Programs in Esthetic Dentistry at SUNY Buffalo, University of Florida (Gainesville), Minnesota (Minneapolis) and UMIC (Racine, City). She sits on the editorial boards of the Oral Health Journal (healing/preventive dentistry), Dental Tribune US Edition and Dental Asia. She is a Fellow of the American College of Dentists, International Academy of Dental Esthetics and the International Academy of Preventive Dentistry. Dr. Goldstep has been a contributing author to 8 textbooks and has published more than 50 articles. She has been listed as one of the leaders in Continuing Education by Dental Today since 2002. Dr. Goldstep is a consultant to a number of dental companies and maintains a private practice in Toronto, Canada.

**Seminar #3, Friday, January 23, 2015**

Dr. Robert A. Lowe - "Clinical Treatment Planning and Problem Solving – When It Doesn’t Go By the Book"

**COURSE OBJECTIVES:**

- Many extractions look easy but can soon become difficult, time consuming, and lead to complications. This course reviews the best techniques and tips for removing "surgical" extractions easily and quickly while conserving bone.

- Multiple extractions and sophisticated restorative cases - Dr. Lowe provides a "plan B" for any treatment situation.

- "The Perimeter Prep" is the only thing needed for etching. Restorative restorative materials enhance the healing of teeth and reduce restorative failure.

- The newest minimization therapies including an all-in-one delivery system to clean, desensitize and remineralize enamel.

- Fluoride-phosphate desensitization is the powerful new adjunct to periodontal healing.

**Profitable** - Minimally invasive techniques are easier, and faster than traditional dentistry. Patients prefer to be treated in an office that practices minimally invasive dentistry. Create a predictable proactive profitable practice with patients for life.

**Seminar #4, Friday, March 27, 2015**

Dr. Karl Koerner - "Oral Surgery: Faster, Easier, and More Predictable"

**COURSE OBJECTIVES:**

- More easily do "surgical" or difficult extractions that frequently occur in general practice.

- Be more proficient at ridge preparation for immediate dentures.

- Select appropriate socket grafting cases and have the knowledge to do them successfully.

- Prevent and/or manage bleeding problems that can occur during oral surgery.

- Control patient anxiety related to oral surgery.

- Perform oral surgery according to current standards of care.

**About this Course:**

- Dr. Koerner has presented hundreds of didactic and participation oral surgery courses at national, regional, and national meetings and at the state level for many dental associations and AGD groups. He is currently Director of Oral Surgery for Intermountain Dental Associates in Utah. In 2008-2009, he was Director of the Oral Surgery Department at the Scenic (ID) Center for Dental Education where he taught and coordinated the oral surgery curriculum. Dr. Koerner is not an oral surgeon but learned oral surgery in the U.S. Army where he completed a general practice residency. For the last 15 years, his Utah practice has been limited to oral surgery including implants and regenerative procedures. He is the author of many articles on various aspects of oral surgery for the general dentist and has authored or co-authored more than 30 book chapters on oral surgery. He is currently a contributing author to the current and previous editions of "Clinical Treatment Planning and Problem Solving – When It Doesn’t Go By the Book".
REGISTRATION FORM

All courses are held at the Normandy Farm in Blue Bell, PA. Includes all breaks, lunch and instructor handouts. Registration is 8:00 AM to 9:00 AM. Courses begin at 9:00 AM and conclude by 3:30 PM

Six hours of CE credit will be given for each course. All courses are acceptable for AGD credit.
